

ANURAG TRIPATHI

FRONTEND DEVELOPER | REACT.JS | JAVASCRIPT

 anu.trip.33@gmail.com  8423110436  Bengaluru, India  anurag-tripathi  pandit6116

SUMMARY

Frontend Developer with 3+ years of experience developing enterprise-grade web applications for banking and publishing clients using React.js, JavaScript, and Angular. Skilled in REST API integration, reusable component architecture, responsive UI development, and frontend optimization. Experienced in delivering scalable production modules while collaborating with backend engineers, QA teams, and Agile stakeholders.

SKILLS

Frontend: React.js, JavaScript (ES6+), Angular, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Vite

React Concepts: React Hooks, Component Architecture, State Management, REST API Integration, Responsive Design

Backend: Core Java, Spring Boot

Databases: MySQL, PostgreSQL, Oracle

Tools & Platforms: Git, GitHub, Jira, Confluence, GitHub Copilot, Claude, LLM Integration (OpenAI, Gemini), Jenkins

Integration & Middleware: TIBCO BusinessWorks, EMS, TIBCO Hawk, TIBCO Administrator

PROFESSIONAL EXPERIENCE

Virtusa Consulting Services Pvt. Ltd.

06/2022 – Present | Bengaluru, India

Associate Engineer

Enterprise Financial Application (JP Morgan Chase Client)

Technologies: React.js, Angular, Java, REST APIs, Jenkins

- Contributed to 10+ UI modules for enterprise banking applications using Angular and component-driven architecture, strengthening frontend scalability and code maintainability.
- Designed reusable UI components across 8+ business modules, reducing frontend development effort by 20% and improving UI consistency across the platform.
- Integrated 15+ REST APIs for real-time data updates, UI rendering, and seamless backend communication across core application workflows.
- Implemented CRUD operations across 6+ production modules, reducing manual processing efforts by 25% and accelerating business workflows.
- Resolved 30+ frontend defects and optimized application responsiveness by 15% during release cycles, reducing QA escalations.
- Supported 20+ CI/CD deployment activities using Jenkins and Git, ensuring successful build validation and stable production releases.

Enterprise Integration Systems (John Wiley Client)

Technologies: TIBCO BusinessWorks, EMS

- Monitored and maintained 5+ enterprise integration services, ensuring high-availability data communication across production environments.
- Resolved 40+ monthly incidents and service requests through Jira workflows, lowering recurring production alerts by 25% and improving production stability.

PROJECTS

Food Delivery Application

Capstone Project

Technologies: React.js, Tailwind CSS

- Built a food ordering platform with product browsing, shopping cart, and order workflows, improving cross-device usability across desktop and mobile platforms.
- Implemented 10+ React components and optimized state management using React Hooks, reducing UI rendering delays and improving navigation responsiveness.

Cyber Health

Healthcare Management System

Technologies: React.js, Bootstrap, Material UI

- Engineered healthcare management modules supporting 3 user roles: Patient, Doctor, and Admin using React.js and Material UI.
- Connected 5+ REST APIs for appointment scheduling and patient management, enabling real-time data synchronization across healthcare workflows.
- Utilized React Hooks and modular UI architecture to optimize maintainability, scalability, and multi-device accessibility.

EDUCATION

Master of Computer Applications (MCA)

Medi-Caps University, Indore

10/2020 – 04/2022 | Indore, India

Bachelor of Computer Applications (BCA)

United Institute of Management, Prayagraj

08/2017 – 05/2020 | Prayagraj, India
